THE UNILAB FLIGHT SELECTOR TABLE

THE UNIBOFFIN EXPLAINS...

The right flights for you must match your particular darts, producing enough aerodynamic lift to stabilise them in-flight but not so much as to throw them off-course. UniLab and Unicorn Sigma darts use sophisticated mathematics to achieve this matching, but you can try yourself using the following table, some experimentation, and maybe a UniLab Flight Selector Kit!

The table below lists the surface area for current Unicorn flight shapes, a Lift Factor relative to the highest lift, Big Wing flights, and a related Stability Factor. Flight weight also affects stability and, although the Stability Factor shown is for a standardised material, the table's last row shows the weight of a representative Plus flight in different materials.

Heavier materials provide slightly less stability but improved durability, Maestro additionally offers more rigidity and therefore consistency of flight, and Q aims to provide this in a lighter flight.

There are no hard-and-fast rules on flights matching, but as a hint to using the table, if your darts are landing in the board at varying angles, try a higher stability flight, if they're landing true, a smaller, lower lift flight may improve accuracy, land flatter, and reduce bed-blocking.

FLIGHT SHAPE	AREA cm ²	LIFT FACTOR	STABILITY FACTOR (standardised material)	CHARACTERISTICS & COMMENTS
Big Wing XL	47.658	1.05	1.02	The most lift from the biggest flight!
Big Wing	44.741	1.00	1.00	Increasingly popular - the table baseline
Plus	39.614	0.87	0.93	The all-purpose compromise
Fin	38.765	0.78	0.90	An Xtra take off from a retro rocket
Xtra	36.323	0.74	0.85	Works well with a straighter throw
Shield	34.979	0.77	0.88	Shields against instability
Slim	32.846	0.57	0.59	Works well with a flatter, direct throw
DXM	26.585	0.51	0.57	A trim of the slim
Sigma Flights				Mathematically matched to Sigma darts
One	37.519	0.93	1.05	Stability-optimised stall-resistant design
Pro	29.249	0.66	0.74	For accuracy with side-loading shafts
Super Pro	25.265	0.55	0.59	Shorter for accuracy with end-loaders only

TO OUR CUSTOMERS....

Our aim is to make trading with Unicorn easy.

We try very hard to have an appreciation of our customers' problems and to have a minimum of rules.

We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn.

1. WARNING

DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION.

2. DISTRIBUTION

We are geared to supply goods to accredited retailers only and thus cannot give satisfaction to clubs or individuals, whom we refer to local dealers, anxious and ready to provide a prompt and complete service.

3. SPECIFICATIONS

We have taken every care to ensure that the information detailed in this catalogue is truthful and accurate. All weights and sizes are approximate and for guidance and comparison only. Should circumstances arising subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation.

4. PRODUCT IMPROVEMENT

Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction.

5. STANDARD PACKS

Many of the items in this catalogue are prepacked in convenient size standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production and to ensure safe transit of the contents. For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity.

6. GUARANTEE

It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only.

7. IMITATIONS

The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation.

8. ACCEPTANCE OF ORDER

All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders.

"There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only are this man's lawful prey."
